Atrios

PARTNER OVERVIEW

Get recommended to startups at the moment they need you.

Atrios is how startups find the software and programs they run on. Our AI agent and a network of founders, investors and community leaders recommend partners to the companies they advise, then book the call or hand over the perk. You decide who qualifies and what they get.

3,000+
tastemakers: founders, investors, advisors and community leaders

4-8 events
a month with YC, a16z speedrun and VC communities

40+ partners
live today, from Brex and Deel to Rho and Rillet

HOW IT WORKS

01

We learn your triggers

Your ideal customer and the moments they buy: a fresh round, a first engineering hire, a renewal.

02

We recommend you on time

Our agent and tastemakers put your offer in front of founders when those signals hit, with the reason why.

03

You meet screened fits

Every lead is checked against your criteria first. Meetings land on your calendar, perks get claimed.

WHAT'S INCLUDED

- **Agent recommendations**: recommended by name, with the reason, and booked for you
- **Tastemaker network**: your offer on their perks pages, newsletters and communities
