HOW FOUNDERS CHOOSE TOOLS

Founders buy what people they trust recommend.

Atrios makes your product that recommendation, from three places founders already listen to.

01

Our AI agent

Founders text Atrios every day for the tools they need. It recommends you by name and books the call.

02

Tastemakers

3,000+ community leaders, investors and operators share you with the founders they advise.

03

Communities and events

Perks pages, founder communities and NYC events put you in the room.
